

## Information for Authors

### PREPARATION AND SUBMISSION OF MANUSCRIPTS:

Authors are encouraged to use the latest version of IEEE author digital tool box (LaTeX2e or Word) to prepare their manuscripts, which is available at <http://www.ieee.org/web/publications/authors/transjnl/index.html>.

Submitted manuscripts must be of length up to 6 pages unless the authors are willing to pay the over-length charges beyond 6 pages at the time of publication (however, manuscripts can NOT exceed 8 pages in total). The manuscripts must be submitted in standard IEEE camera-ready format (double-column, 10-pt font). Files should be submitted in **PDF** format and formatted for 8.5x11-inch paper. Submitted papers may NOT have appeared in, nor be under consideration for, another journal or conference. The Program Committee reserves the right NOT to review papers that either exceed the above length specification or have been submitted or published elsewhere. Submissions must include the title, abstract, keywords, author(s) and affiliation, e-mail address(es), fax/phone number(s), and postal address(es). In case of multiple authors, indicate which author is responsible for correspondence about the submission.

The paper submission link is <http://edas.info/newPaper.php?c=6067&>. Note that you may need to create an EDAS account by clicking [here](#) unless you have one already. Please select ONE track that best fits the subject matter of your paper. If none of the tracks fit your paper, please submit your paper to the General Topics track if you are unable to choose one track. The TPC chair and vice-chairs will assign the paper to the appropriate track.

The EDAS Help page for the ICCCN 2008 conference <http://edas.info/help.php?for=newPaper&c=6067&>

### REVIEW AND PUBLICATION OF MANUSCRIPTS:

All submitted papers will be reviewed and judged on originality, correctness, relevance, quality of presentation, and technical strength and significance. An accepted paper **must** be registered and presented by one of the authors at the conference venue (we reserve the right to remove any non-paid papers from proceedings and remove any non-presented papers from the IEEE Digital Library) and must be limited to 6 pages (with an allowance of up to two extra pages at a cost of US\$150 per extra page beyond 6 pages) in standard IEEE camera-ready format.

### REGISTRATION POLICY

Everyone who attends (including paper authors/presenters who give talks or chair sessions) the ICCCN08 conference and/or workshops is required to register and pay registration fee.

One FULL rate of registration is required for each accepted paper by one of authors of the paper (student or not), and each registration can cover up to three papers (conference or workshops) authored by the same registering author (i.e., the registering author must be the common author of those papers, up to 3 papers). A reduced rate (called discounted rate) can be applied for other co-authors of accepted papers (a reduced rate cannot be used for fulfilling the requirement of the one FULL registration for each accepted paper).

The registration deadline for accepted papers is May 28, 2008. Early registration deadline for the discounted rate (50% off of FULL rate) for co-authors is June 25, 2008. Full registration rate is applied after June 25, 2008. Each registration covers **BOTH** conference and workshops. ICCCN08 conference and workshops proceedings will be published by IEEE ComSoc.
